### **SnapDragon CD Release Performance at ShapeShifter Lab**

New York, NY — The avant garde jazz tour de force duo *SnapDragon* will perform at ShapeShifter Lab in Brooklyn, NYC on Friday 8:00pm to celebrate the release of their new album "The Long and the Short of It: Duo Improvisations" (available digitally January 18, 2019).

*SnapDragon* features the telepathic musical communication of Travis Sullivan on alto saxophone and piano, and Bob Meyer on drums. Inspired by the free improvisation explorations of Lee Konitz, Ornette Coleman, John Coltrane and Anthony Braxton, SnapDragon takes the concept of improvisation as spontaneous composition to a brand new level.

Friday, January 18, 8pm, one set only
